Subject: you won't be able to wash that stink off

You miserably SOB, your family will be embarrassed from the stink all over you for the rest of your life. Once you bend over and take it up the wazoo from a trump weenie, you just won't be able to ever get clean again.

Too bad for you. You could have made a different choice. If it wasn't you, you sure better be passing this along to whoever did take that trump weenie.
